

Submitter: Isaiah Kolar  
On Behalf Of:  
Committee: Senate Committee On Commerce and General Government  
Measure, Appointment or SB1593  
Topic:

Growing up skiing and riding terrain in many states, SB1539 is a logical and fair measure that ensures the ability of residents and non residents to enjoy Oregon's natural beauty. It is unfair to the thousands of people who enjoy mountain biking, skiing, and boarding to uphold legislation that puts undue pressure on the companies and people that make outdoor recreation possible. Personal responsibility is IMPLIED (legal or not), and that needs to be recognized. I stand to gain nothing from this ruling other than the fact that I can keep enjoying Oregon's outdoor recreation. I know people will keep jobs and that others will travel to, and spend money in, one of the best outdoor states in the west. Thank you!
