Measure, Appointment or HB4153  
Topic:

Small farms are the heartbeat of America. They need access to be able to support the livelihood of their families and bring in revenue through farm stores, tours, upick, etc.

These farms greatly enrich our communities and our families.

My own favorite memories as a kid were growing up on a farm. These farms are slowly disappearing but children should still be able to experience the rich learning experiences of farming, seeing where their food comes from, eating fresh real foods, meeting farm animals, and having real innocent joy.

Please allow these farms the opportunity to help give families these experiences. Our souls need it.

Thank you.
