House Committee On Revenue

Measure, Appointment or Topic:

HB4148

Dear members,

Please allow local communities to use the lodging tax that already exists to better suit the needs of our communities. Not only do we need to be able to protect ourselves, but the massive influx of visitors that come to our communities every year from the Portland area and Salem area. Our emergency services are already stretched thin with just the local people and infrastructure is terrible getting back-and-forth from the Portland area so if someone does have an emergency getting back to Portland can be quite the challenge.
