Government

Measure, Appointment or Topic: SB1593

I support local Oregon businesses having protection from litigation in a way that makes it affordable to provide recreational services to the public. I am also wondering if there is a way that the cost of liability insurance can be capped in general, this seems to be a problem not only for recreational and sports operators but also for other businesses as well like health care facilities. It is reducing the number of businesses and making the cost of being active higher.
