To whom it may concern. These farm stands are and have been a staple of our county for over half a century. Allowing public access to fresh from the farm produce and staples. Tourists from miles around come to hood river for just this reason which also brings revenue to the local economy. Which due to late freezes and poor years and covid is still recovering . Is it the governments position to destroy any means these farmers have to survive? Actions like this do exactly that. Thank you for your time.
