Measure, Appointment or HB4153  
Topic:

HB 4153 is an oppressive anti-small farm bill that should not be passed. There should be positive encouragement for small scale farmers and farm stands in Oregon in order to provide a healthy "local" alternative for Oregonians. Many of the measures are not practical and are constrictive for positive farm growth for both existing small farms and new start ups. It is not the state legislators job to limit or oppress Oregonians and their ability to make and obtain healthy choices of food freedom for themselves and their loved ones.
