

Submitter: Delores Porch

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB4105

Establishing 10- year logging levels would put pressure on the state forester to increase the harvest levels at the expense of natural resources. Also, having statutory mandatory harvest levels creates an unbalance between timber harvest and clean air, water, fish and wildlife habitat and recreation.

You know that if this bill passes it will lead to more litigation. Between this and the implementation of this bill will cost millions of dollars.
