

Submitter: Heather Gray

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB4153

HB 1453: I want to think this is making some improvement as to how farmers can make money on their land, but I'm left wondering: how about you stop trying to tell people what they can and can't do with their land? What is the point of the minimum acreage given in this bill? Why a long bill to encumber people with more rules and confusion over what they believe they are allowed to do or not do with their own farms?

What about focusing on the water issues? Let people use rainwater they collect and have more ability to use the water that comes through their properties. Also, stay on DST and stop changing the time twice a year.
