

Submitter: DAVID HOHLER

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB4006

Co-Chairs Helm and Owens, members of the Committee:

I urge you to oppose HB 4006. Not only is it a bad bill for the future of water in the Columbia and the Umatilla BASin, it sets a bad precedent for the state. Oregon's water resources belongs to all of us and making piecemeal law is a bad idea. Exempting irrigators in one area of the state from important water laws that every other farmer in Oregon must adhere to is not good for the Columbia River, the Umatilla Basin, or our state. The Umatilla Basin is home to a critical salmon resource and allowing more water withdrawals won't make that resource and easier to recover. This bill undermines the Oregon Water Resources Department's ability to manage over 700,000 acres of irrigated agriculture, and sets a dangerous precedent.

I am also concerned about the effect of increased agriculture on the groundwater quality of the Lower Umatilla Basin Ground Water Management Area, as increased irrigation risks increased nitrate inputs into groundwater.

Please oppose this bill.

Thank you for your consideration of my testimony.

Sincerely,

David Hohler
