

Submitter: Kevin Goodrich
On Behalf Of: Oregonian Taxpayers
Committee: House Committee On Behavioral Health
Measure, Appointment or Topic: HB4042

House Bill 4042 appears to be yet another proverbial hammer in search of a non-existent 'nail.' Excessive legislation like this potential mandate diminishes the people's liberty, so please OPPOSE this bill, and leave our self-management to the people's freedom - this should not be a foreign concept in America, leaving taxpayers to manage their own affairs as nobody is being threatened with harm. Stay within the Oregon constitution's sandbox by focusing on budgetary issues only during this short session. Vote no.
