

Submitter:

John Davis

On Behalf Of:

Committee:

House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or

HB4006

Topic:

Please oppose this bill. It provides an unfair advantage to water users in one part of the state over water users elsewhere. This sets a bad precedent. Furthermore, it allows an expansion of irrigated agriculture in a part of the state already suffering from groundwater pollution by nitrates from agriculture. Expanded agriculture will only make this problem worse. Again, please oppose this bad bill.
