Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4148

I oppose changing the split. The state came to an agreement with the lodging industry in 2003? And should continue to honor it. I haven't researched the numbers but have no doubt lodging tax receipts have increased year over year far greater than inflation. I know that is the case in Cannon Beach. City and County insatiable desire for more funds risks killing the goose that laid the golden egg.

Thank you
