SB1571

Nicotine is an incredibly harmful drug and extremely addictive, particularly for teens & young adults. I grew up in the 1950s-60s and got very familiar with the dangers of nicotine. My Dad had a small wholesale candy & tobacco business and through my years of working there I was able to observe the pernicious effects of both nicotine and sugar. I also saw how peers who started smoking early were rarely able to “kick the habit.” No more, please’
