Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water  
Measure, Appointment or HB4105  
Topic:

Thank you for the opportunity to provide my explanation for opposing this bill. I graduated from OSU in 1980 and have live din Tillamook ever after. I have watched with great frustration as the timber industry has gained ever increasing influence over the state legislature and departments. This insanity has to stop. Our forests and tree plantations are in a world of hurt. This bill will make things worse for water quality, drinking water, fish and wildlife. The only entity that gains is the timber industry.

Respectfully submitted
