

Submitter: Diana Lett

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure, Appointment or Topic: SB1578

Dear Senator,

In all the world, Oregon's farm and forest lands are unique and irreplaceable.

Of course, everyone wants to live here - these lands make it a beautiful and special place. There will be ever-increasing pressure to urbanize these "assets," to develop NOW.... to pave over the very assets that make it so special. That pressure is never going to let up.

However, the FUTURE calls to us. Generations to come are always going to need farms and forests, to produce what people need to live. Our precious assets will be even more needed and valuable.

Please reject SB 1578. Save our farms and forest lands now, for ourselves, and for the generations who will follow us. They will thank us for caring about them, and Oregon will become even more valuable.

Sincerely,
Diana Lett
