SJR203

I wholeheartedly support SJR 203 to ban secret police in Oregon. Legitimate law enforcement does not run around masked without identifying badges—harassing, injuring, killing and disappearing our fellow citizens. What kind of world are we living in if that is acceptable? Thank you for your ongoing efforts to protect the public's safety from marauding thugs—and particularly our most vulnerable residents. We need to stop this massive and purely racist overreach in its tracks. Please stay strong as legislators in this perilous time for our state and country.
