

Submitter: Larry Read

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB4153

We oppose HB4153, which will open the door to unchecked commercial development and threaten protections and preservation of farmland. We need more farmland for food production especially since climate change is causing more drought along the west coast. It could set a precedent to open farmland to allow more commercial development while decreasing food production. Hold the line to allow agriculture farming only— no farm stores, but farm stands o.k. Please vote no on HB4153.
