HB4105

HB 4105 is a terrible idea for our state's resources. It's time to preserve our natural spaces and pivot to other, more easily renewable possibilities. We need to be smart about our conservation, and make up for our past failures.

Implement the Western State Forest Habitat Conservation Plan (HCP) that we have fought so hard for, and let the Oregon Department of Forestry manage our forests to sequester carbon.

It's time to stop failing ourselves and our future residents.
