Resources, and Water

Measure, Appointment or Topic: HB4105

State leaders,

I love and use our state forests. But this bill undermines our state forester's ability to manage our state forests for the greatest benefit of all Oregonians. The zombie timber targets bill is being driven by a narrow special interest and is not needed: we have been able to get reliable harvest levels that meet state targets under the existing plan.

Time to move forward into a new era of state forestry under a new state forester.

Don't hamstring her with old ideas.

Sincerely,

Oakley Brooks
