Truman Stone

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1545

As we celebrate our 250 Semiquincentennial, perhaps the greatest achievement of humankind, we should also acknowledge the importance of public land to individual liberty. Public land differentiates the USA from most of the world where the landed, lord over the masses. This bill is important to eliminate uncertainty over access, prevent frivolous lawsuits, and advance freedom.

I support SB 1545 and thank its sponsors.
