

Submitter: Sharon Hawks

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1588

Honorable Chair and Members of the Committee,

Thank you for the opportunity to testify for SB 1588. This is a bill that makes a lot of sense- it is a measure that would not only make it a lot easier and and cheaper for people to get more energy efficient power in their homes, but would at the same time make our energy systems more green and efficient. It's a great money saving idea that would allow low income people to get these previously out of reach systems. It deserves your further consideration. Please vote to support SB 1588. Thank you!
