Measure, Appointment or  
Topic: HB4006

Hello, I am writing in support of HB 4006. Our state is struggling with progression, helping people that live here thrive so we can continue to support this state we love. This bill will help ensure resources and sustainability for years to come. Let's protect what we have while also moving forward. This Bill does exactly that. We must not only plan for the now, but look ahead to protecting the future of Oregon's patrons.
