

Submitter: Kathleen Wilson

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1588

Attention to the Senate Committee on Energy and Environment. I like the fact that this Bill will require each power company to make a program to help pay for energy projects that reduce customer costs. I would like to see one for the Senior Citizens. If the power companies would STOP INCREASING their rates, we wouldn't need this SB 1588 BILL!
