Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB4105

My issues are generally with the USFS and their poor management of federal forest lands in all states, along with my hatred of the long-standing and irresponsible commercial, private and corporate "logging" companies; I could provide names of the worst offenders, but you already know the names. I also oppose the current US administration, and their continued attempts to gut the Roadless rule.

I am from Alaska so I could say a great deal about poor state forest management as well, but the states need to step up, oppose all existing corporate abuses of public lands for personal and private gain.
