

Submitter: Jay Jay Raskin FAIA
On Behalf Of:
Committee: House Committee On Emergency Management and
Veterans
Measure, Appointment or HB4100
Topic:

I strongly support HB 4100 that requires owners or operators of bulk oils liquid fuels to obtain certificates of financial responsibility from DEQ. DEQ has created a fuel tank seismic stability program and this proposed legislation is the next step to ensure that the terminals have the financial capability of covering spill-related liabilities that include spill or release response, remediation and damages. It addresses the risk that the owners or operators might walk away from the damage, following a Cascadia seismic event.

Thank you for leadership on this issue.

Sincerely,

Jay Raskin FAIA
Past Chair of OSSPAC
