On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4148

The opposition to HB4148 is extremely important to the businesses and tourist dependent cities such as Florence to maintain that steady flow of tourists that maintain and grow their economic success, plus supply the extra tax revenue to run our state. Increasing the taxes and diverting these funds mean our tourists will be less able to afford the cost and will choose other destinations. Please maintain the allocation and allow the growth of tourism to our city and state.

Thank you,Karen and Ralph Nichols
