House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or  
Topic: HB4105

We don't need another increase in logging in our state forests. There is already a glut of clear cuts around the state that make the landscape look horrible, increase erosion, loss of animal habitats and an overall net negative for our state. Our state is already hurting from the impact of other measures that the state and federal government has taken with little regard to the impact on the majority of residents. I come from a logging family and I support reasonable harvesting and usage, but this bill goes too far. Please consider the overall impact and vote no on this bill. Thank you.
