Measure, Appointment or HB4105
Topic:

I strongly oppose this terrible bill, bill 4105. We need our mature and old growth forests more than ever now, in this time of climate change. Oregon is too dry and too prone to fire. The forests help to humidify our environment, provide habitat for wildlife, and help to protect clean water for fish and for humans. Harvesting should not be the number one priority for forest management.

Vote NO on 4105. Thank you!
