Pam Conley

On Behalf Of:

Committee:

House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or

HB4105

Topic:

This bill would make logging the highest priority for state lands when other factors such as clean water, carbon storage, & forests as habitat for wildlife & peace of mind are much more important priorities. This bill basically hands our forests to the timber industry. Please stop this bill from moving forward & come up with a plan that protects our forests so they can provide all the other great things that a healthy forest can provide as listed above.
