Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SJR203

This measure may not go far enough to curb the unlawful actions of ICE, but it will help. We the people need to have a way to stand up for justice when the elected officials are not caring, or listening to us. I am greatly upset with the whole situation, especially because they are using my tax money to pay for these actions which are against the law. Please pass this measure. Thank you. Sue Craig
