

Submitter: Stephen Fuller-Rowell  
On Behalf Of: self  
Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water  
Measure, Appointment or Topic: HB4105

Mandating harvest levels of an agricultural crop such as timber is unwise at a time when climate variation in rainfall and temperature are ever-increasing. Prudent management of our forests will require more agile responsive management not less.

As a former organic farmer, I oppose HB 4105.
