

Submitter:

Eileene Gillson

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1571

Anything that helps discourage young people from getting addicted to nicotine is important. It prevents the development of serious health conditions that end of costing everyone for the medical care needed to manage those conditions. Young people need to be made aware of the painful health consequences they will face in the future due to nicotine addiction.
