Measure, Appointment or Topic: HB4155

I am writing in support of the House bill 4155. My husband and I have been trying to have a child for three years after a previous, tragic loss of pregnancy. I am now unable to conceive naturally. Fertility treatments are the only option we have left to have a biological child and insurance doesn't cover the treatments. Financially, we can no longer pursue these treatments without insurance coverage. Please help me fulfill my dream of becoming a mother, and please pass this bill for me and the thousands of other women in Oregon who have fertility struggles.
