Committee: Senate Committee On Commerce and General  
Government

Measure, Appointment or SB1580  
Topic:

Please support SB 1580. In these dark times, trusted local sources of news are more important than at any other time in my memory. Funding is fading, especially in rural areas, for the quality of journalism that we need and expect. This bill should move to require large organizations to compensate local news sources so they can be sustained in our communities. YES ON SB 1580!
