

Submitter:

Erich Schloegl

On Behalf Of:

Committee:

House Committee On Education

Measure, Appointment or Topic:

HB4160

I respectfully urge your support for HB 4160.

This bill ensures that schools are prepared for one of the most time-sensitive emergencies a person can face. When cardiac arrest occurs, there is no time to hesitate. Having a clear plan, accessible AEDs, and trained staff can mean the difference between tragedy and survival.

HB 4160 reflects thoughtful, preventative leadership. It prioritizes readiness, protects students and staff, and reinforces the responsibility we all share to ensure safe learning environments.

This is a practical, life-saving measure, and I encourage you to support it.
