Measure, Appointment or Topic:

HB4160

I am writing in support of HB 4160.

This bill addresses something simple but critical: being prepared to save a life. Cardiac emergencies can happen anywhere, including in our schools, and when they do, immediate response makes the difference between life and death. Ensuring schools have clear emergency plans, accessible AEDs, and trained staff is a responsible and necessary step.

HB 4160 is not complicated policy, it is practical preparedness. It strengthens safety, provides clarity, and ensures that schools are equipped to act quickly when seconds matter most.

Protecting students and staff must remain a top priority. This bill moves Oregon in the right direction, and I respectfully urge your support.
