Topic:

HB4027

Dear Committee on Labor and Workforce Development,

I strongly oppose this bill. I really wish you all would listen to what the voters are saying. We cannot and do not want any more taxes. Businesses are leaving or have left Oregon because the taxes are too high. This state can't afford to lose any more businesses. Putting forth a study one week and switching to a taxing bill the next week seems a lot like you are deceptively working to hide this from the voters. Do not be confused, the voters are waking up and the day of reckoning is coming. Start making smarter choices please. Vote this down. NO ON HB 4027
