

I am in favor of HB 4100.

I am writing today in strong support of HB 4100. This requires that owners have to obtain a “Certificate of financial responsibility” from the Department of Environmental Quality. Companies that make billions of dollars in Oregon from these fuels should be expected to pay for the cleanup costs when a catastrophic collapse of the CEI-Hub happens.

I strongly urge support for HB 4100 by the Committee. We can no longer delay taking this critical step.
