Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB4105

Ok, the only reason to continue with logging as is is short term benefit. I dont need to go over the facts. You have them.

We need to think long term. Like generations down the line long term. And how these cuts ripple out and affect all of our environment in negative ways. You all know the right thing to do is not to log. We have a history of poorly managed forests. Let's do right. And start doing things in a better way. Otherwise the costs will only grow, as will the fire danger and environmental degradation. Don't be selfish. Don't be bullied. Do better.
