Measure, Appointment or HB4032
Topic:

I urge you to support HB 4032, Fuels Diversification – make disaster fuel reserves available in other parts of Oregon. Positioning energy reserves so they are readily accessible in an emergency will greatly improve Oregon's resilience. Resilience is what allows communities and the state to recover quickly after a disaster is critical for the longevity of that area and needs to be prioritized, so we will have a future where we live now.
