SB1542

Dear Chair Gorsek, Vice Chair Weber, and members of the committee,

I believe these bills contribute to our transportation infrastructure by making them safer and more climate-forward. I'm a frequent cyclist that moves around town (and other parts of Oregon) by bike, and anything we can do to encourage folk to put their cars aside for even one trip a week by making things safer is important. Also it seems like this bill can help different parts of the government work together better while being efficient with spending. I urge you to support SB 1542 and SB 1543. Thanks!
