SJR203

We seen enough of how ICE operates here in Portland and much, much more of the same in Minneapolis. We cannot allow a secret police to terrorize Oregonians with no accountability. This measure is a very modest step toward reining in an agency that disgraces professional law enforcement and continually flouts the US Constitution, judicial orders, and common decency. Failure to pass this measure signals acceptance of a home-grown gestapo without legal, professional, or moral restraints.
