Resources, and Water

Measure, Appointment or Topic: HB4105

I support protecting Oregon's natural resource over logging.

HB4105 would increase industrial clearcut logging on public lands and upset the balanced management on state forests by elevating logging over other values. Clean air, water, fish and wildlife habitat are too important to be put behind logging in priority.

Oregon state forests are already providing huge economic benefit as intact forests. If it's economic benefit that is important, which money usually is, then it makes more sense to keep our forests intact because of our outdoor economy.

I urge you to OPPOSE HB4105.
