HB4153

This bill has many fantastic things. Unfortunately it prioritizes the bigger farms and penalizes small farms. Tired of our government and the wealthy punching down. This could drive small farms out of business which would then allow the big farms/ private equity to swoop in. This state used to be about community and helping out neighbors, now it's greed and profit. Take out the bias towards big farms. Let the little guy survive for once. Take the boot of their necks already.
