Measure, Appointment or

HB4105

Topic:

I absolutely oppose any further logging in our state. Lands need protection and preservation for ourselves, future generations, and all the wildlife that relies on it as they're home. I am in our local natural areas at least three times every week for the entire day. I have seen the destruction caused by the logging industries and it is massive and disheartening. What we have already done to our lands is unconscionable. I demand that we value our Forest for far more then they are worth monetarily.
