This bill is terrible. It will hamper the opportunity to purchase organic whole foods from these farm stands that I frequent regularly. They are cost effective for our lower income families, they give us the opportunity to eat healthy organic foods, they support small farm businesses and women owned farms.

It is ridiculous that small farms cannot have a way to sell their goods in a farm stand. These are labor intensive farms as they are usually run on skeleton crews. Having a farm stand makes it reasonable to sell the food directly to the public. Getting small farm food into stores is impossible and farm stands are the way to support small farms.

This bill is unfair to the growers, owners and the public.
Save our farm stands! Do not pass this bill!
