Topic: HB4105

VOTE NO ON HB 4105! This bill would prioritize clearcutting Oregon forests over other critical values such as clean drinking water, clean air, wildlife habitat and outdoor recreation. Currently, management of State Forests requires a balance of all these multiple values. The State Forester already sets sustainable harvest levels. This bill would significantly change the way state forests are managed. It is UNACCEPTABLE to prioritize timber harvest over all the other values these forests offer. NO ON HB 4105!
