Measure, Appointment or HB4105
Topic:

This letter is to express my opposition to house bill 4105. Under this corrupt administration, our environment is under attack or up for sale.

It's extremely important that our elected officials protect our environment for future generations.

Clear cuts are ugly, they erode the land & destroy fish and animal habitat. We need elected officials who we'll stand up to the timber industry. Not allow them to run ramshot over our environmental protections. Don't back the timber industry because they'll donate to your campaign. Stand up and do the right thing.

Sincerely Diane Burke
