

Submitter: Hillary Kittleson

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1588

Honorable Chair Senator Sollman and Members of the Senate Committee on Energy and Environment.

In today's New York Times, there is a report that the Trump Administration has essentially gutted environmental regulation. Such disheartening news makes it even more important that states take action to mitigate environmental risk. SB1588, which expands access to homeowner energy efficiency upgrades and pays for the upgrades with energy savings, is a positive step in that direction. The focus on low-income Oregonians is particularly commendable.

I urge you vote in favor of SB 1588.

Sincerely,

Hillary Kittleson
