

Submitter: Susan Rankin

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB4105

It seems that several bills before the legislature are the product of extractive activities proponents which do nothing to improve the quality of life in Oregon. As I understand it, the expense and time such a bill would necessitate would be prohibitive. The forces of profit have deep pockets and are relentless in their never ending drive to exploit this beautiful state. We need, now more than ever, to protect our world from climate change and our forests can help.

The federal government is intent on raping our public lands for the profit of big businesses. Let us not succumb to this deadly movement. Time is running out for life on this planet and old growth forests are one of the things which can help save it.

Please oppose HB 4105

Respectfully,
Susan Rankin
